RE: PM 1697/1550 New Foreign

Dear Nick:

We are about to file a U.S. patent application on a Beta smoking system. Burns, Doane, Swecker & Mathis is preparing the U.S. application.

On September 11, 1992, we filed PM 1550 on a similar Beta smoking system.

We are having Burns, Doane attorneys draft and file a PCT application combining PM 1697 and 1550.

We are considering Turkey for national filing of PM 1697/1550, on or before September 11, 1993, if possible.

We will transmit the PM 1697/1550 as soon as we can, and we realize that delay creates a risk of filing PM 1697/1550 beyond the first anniversary of the U.S. filing date.

Sincerely,

Charles E. B. Glenn
